DOUBLE DOOR FRAME - 130 x 70

JYOTI Door Frame

DDF (Double Door Frame)

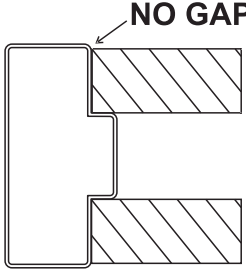

Size 130X70 mm

Thickness 1.60-2.50 mm

ZERO GAP - ENSURING INSECT & DUST FREE HOMES

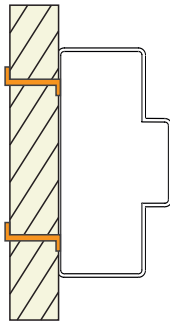

Traditionally concrete and cement have been used for installing and fixing standard open frames. This results in creation of gaps which allow easy access to bugs and dust to enter and settle inside homes. Moreover standard Frames do not have product uniformity and compromise with product appeal & quality. JYOTI Door frame is a perfectly CLOSED door frame which is extremely easy to install and gives an everlasting finish. Zero gap ensures a dust free and bug free-healthy environment, inside the homes.
